SINCE 1822

Royal Agricultural Society of NSW

Welcome from the President

With a proud history running competitions for the benefit of breeders, producers and craftspeople going all the way back to 1823, the Royal Agricultural Society of NSW welcomes entries from right across Australia to be judged at the Sydney Royal Easter Show.

Our vision is for a community that understands and values sustainable Australian agriculture and award-quality produce and we hold competitions each year in order to improve the quality of produce and animal breeds. Each entry in our competitions allows us to fulfil our vision and is of benefit to us all, Australia-wide.

Your decision to take part in our competitions ensures your place in our history, joining more than 30,000 others each year with a willingness to be judged and assessed, and introduces your entry to Showgoers, consumers, exhibitors and our highly regarded judges.

Sydney Royal competitions are constantly progressing, in part due to the innovation and enthusiasm of competitors, and also in response to consumer and industry trends. This willingness to evolve guarantees Sydney Royal medals remain respected, relevant and worth striving for.

Winning an award in a Sydney Royal competition confirms the exceptional standard of your entry and provides marketing opportunities on many levels. It is an incredible acknowledgement of your hard work and dedication as judged by our esteemed panels of judges. As I thank you for considering our competitions, I also thank our judges, stewards, sponsors, committees and supporters.

Whether your entry is awarded a medal or not, I hope that you enjoy and ultimately benefit from this Sydney Royal experience, and I wish you the very best of luck.

A handwritten signature in black ink that reads 'Robert M. Ryan'.

DISTRICT COURTS

17. The District Exhibit Competition made its first appearance as a formal competition recorded in the catalogue, in 1900. It was then called the District Societies competition. The idea originated, however, in 1876 when the RAS Council resolved to set apart three Courts in the Exhibition at Prince Alfred Park for the joint exhibits from country societies in the principal divisions of the colony.

The number of participating Courts and the points total they vie for may have varied over the years but the effort which successive generations must put into the displays has not.

For the purpose of this Competition the State of New South Wales is nominally divided into four districts. See map showing District Boundaries on page 19 of this Schedule. Exhibits from districts in other States are eligible to compete, by invitation of the RAS.

Each Exhibit of produce and display is presented by a District Exhibit Organising Committee also known as a District Court. The District Courts determine which produce from their region comes forward for judging in the District Exhibits Competition.

18. Each District Court must be in charge of a responsible member or nominee of the organisations exhibiting same, to be called the Organiser or Manager, who will have to arrange and display the Exhibit to the best advantage.
19. The Organisers must send plans to the Coordinator of Agriculture, of the RAS for approval or otherwise, for the purpose of any alterations or rearrangements to the existing Courts by 13 December 2019, otherwise the Organisers must use the stands in their Courts as used by them for the last Show. The approved alterations or rearrangements are to be carried out by the RAS.

Note: District Exhibit Organising Committees are advised that in addition to the provision of Special Regulation 19, should there be any other expense associated with construction or display work which may be borne by the RAS, such must be first approved in writing by the RAS before the work is executed and expenditure is incurred.

ORGANISING EXPENSES

20. Organising expenses (in addition to Prize Money) will be paid to each competing District.

FINANCIAL STATEMENT, STATEMENT OF RECEIPTS AND EXPENDITURE

21. The RAS must be supplied with a financial statement in a form prescribed by the RAS and a statement of receipts and expenditure from each District Exhibit Organising Committee not later than 31 October each year.

FREIGHT CONDITIONS

22. Each District shall be responsible for payment of freight on Exhibits notwithstanding the manner in which such Exhibits are forwarded.

BONA FIDE

23. All Exhibits must be the bona fide production of the District exhibiting same. Must be capable of being grown in the area, be generally available but not necessarily commercial. Any District committing a breach of this Regulation will be liable to disqualification.
24. All Exhibits, excluding Wine, must have been produced between 1 January 2019 and 1 March 2020. Wine and Olive Oil bottled and available for commercial sale between 1 January 2019 and 1 March 2020.

DISPLAY CONSTRUCTION

26. General display must be based on the use of produce of an agricultural or pastoral nature produced in the area. The area of any landscape type of painting or paintings depicting rural scenes and/or other decorative features or non-agricultural or non-pastoral produce totals, in the opinion of the Judge, not more than 5 square metres. Points will be deducted for the use of artificial decorative material in excess of the foregoing limit. This does not include sides of stand. Any produce displayed on the front of the stand must not protrude more than 300mm from the basic front. **Any produce displayed on the stand MUST be Australian grown and produced.**
27. An identifiable amount of all Exhibits submitted for judging on the floor must be staged unless otherwise provided under the scale of judging points.
28. (a) No District Exhibit shall incorporate designs attached to the vertical face of the pelmet area above the display deck.
 (b) The maximum height for any structure on the display deck must not exceed 3m from the closest point on the deck.
 (c) Any structure on the display deck must not significantly block vision of signage on the pelmet above the display deck.
 (d) Display construction to cease at 11pm the night prior to display judging.
 (e) The front wall must not be incorporated into the design or display. Display elements must finish at the front edge of the deck. The front wall will not be judged.

CONDITIONS OF JUDGING

30. The Competition will be decided on the total points gained by the Exhibits submitted for judging out of the net total of 6785 in 2020.

32. Nil points will be awarded in the case of each and every Exhibit not submitted for judging as required, unless eliminated.
33. All agricultural products must be identified for judging but no Award points will apply.
34. In order to ensure a balance between districts because of varying climatic conditions, each district shall eliminate from the Schedule of Exhibits set down in Sections 1-12, sections, subsections, commodities or Exhibits aggregating a total value of 1270 points, all such eliminations being subject to the approval of the RAS' Agriculture Section Committee.
35. Lists of the Exhibits selected for elimination are to be ready for collection 45 minutes before the start of judging each day.
36. (a) Where due to action of any public authority or transport failure, a District Court is unable to show an Exhibit after eliminations have been accepted, then the RAS may award to that Court points for such Exhibit which will be the average of the points (excluding elimination points) awarded for the same Exhibit as submitted for judging by the remaining Courts in that year of judging.
 (b) Exhibits not submitted for judging (including eliminations and non-entries) will be excluded from the average calculation of points referred to in paragraph (a).

55. In order to provide an independent educational display of Exhibits from the District Exhibit Competition the RAS shall have the right to retain for the duration of the Show such Exhibits as may have been selected by the Judges for the purpose and also to conduct a further Competition as may be decided by the RAS in such display.

56. Exhibitors are required to supply judged Exhibits for display in the RAS Centre for Agricultural Excellence.

DEFINITIONS

57. The following definitions apply in the conditions set out in the scale of judging points:

STOCK FODDERS AND PASTURE GRASSES

Sheaf or bundle - A sheaf or bundle will comprise only the commodity to be judged, firmly tied, and will be not less than 250mm and not more than 375mm in circumference at a tie situated approximately 100mm from the base. In the case of Rice, sheaves will be 150mm in diameter.

Cured - Must be able to be stored for at least twelve months.

JAMS

Colour - Good colour, authentic, resembling fruit used. Dark colouring may be the result of caramelisation.

Aroma - Should resemble the natural fruit with a slight sweetness, overly sweet bouquet indicates the use of too much sugar. Metallic aroma may indicate reaction to cooking in an aluminium pan.

Consistency - Good set, syrup should bind the fruit pieces. Light set or runny consistency indicates a lack of naturally occurring pectin in fruit used, e.g. berries, melons etc. May also indicate a lack of sugar or acid. Stiff consistency may be the result of overcooking.

Appearance - Small, even pieces of fruit evenly distributed throughout the syrup. Fruit should not rise to the top. Clear syrup, not cloudy.

Also, the surface of jam should be free of froth or bubbles. No evidence of moulds or fermentation, indicating lack of sterilization, inadequate sealing, covering when warm or insufficient cooking. No evidence of crystallisation.

CONSERVES

By definition, large or whole pieces of fruit evenly suspended in a syrup. The fruit should retain its shape, and not cooked to a pulp as for jams. The syrup should lightly bind the fruit and the ratio of fruit should be greater than the syrup. Conserves are generally sweeter than jams because of a higher ratio of sugar.

Other quality points for Jams apply to Conserves.

MARMALADES

Appearance - Thin slices of fruit, shreds or julienne of citrus rind evenly suspended throughout the syrup. Fruit and rind should be consistent in size and shape, whether thin slices or chunky cut. The syrup or gel should be clear and not cloudy.

Colour - Type of marmalade varies. Colour ranges from light to dark depending on the type and mix of citrus fruits, length of cooking and amount of sugar used.

Consistency - Syrup or Jelly should be a firm set, but neither tough nor runny. Sometimes marmalades with julienne citrus rind have a soft gel which is often due to the lack of pectin (present in the rind and pith). Granular texture may indicate a lack of pectin or ripe fruits.

Other quality points for Jams apply to Marmalades.

JELLIES

Colour - Should be a rich and well developed but not darkened as this indicates overcooking. Jelly should be transparent and clear, and not cloudy, when held to the light. Good visibility even with darker fruit, e.g. grape or plum.

Consistency - Should be firm. The edges of the jelly should retain their shape when cut with a spoon, holding for several minutes. No evidence of 'weeping'. Rubbery texture indicates inadequate sugar.

Failure to set indicates imbalance of pectin, acid and sugar. If syrupy, a result of not cooking long enough after sugar is added.

Other quality points for Jams apply to Jellies.

EXTRACTED HONEY (LIQUID) AND HONEY (CREAMED)

Standard round clear glass honey jar. Volume 375ml with a white plastic or metal 63mm lid.

INDEMNITY

58. This Special Regulation replaces General Regulation 173 and 174(a). The District Court's indemnity contained in General Regulation 174(b) shall be reduced proportionately to the extent that any negligent act or omission of RAS may have contributed to the loss, damage, death or injury; the District Courts agree to have public and products liability insurance to cover the actions and omission of their workers and volunteers. To cover personal injuries of volunteers, District Courts agree to have Voluntary Workers Personal Accident insurance. In addition, the RAS extends its Voluntary Workers Personal Accident Insurance to cover District Court Volunteers whilst on Sydney Showground during the Easter Show Period of 38 days (being 18 days for bump-in, 12 days of the Event and 8 days for bump-out).

MEDIA COVERAGE

59. The aim of the RAS and within the RAS Media Centre is to maximize positive coverage of the Exhibits and the hard work of the people behind them.

GUIDELINES FOR DISTRICT COURT DESIGNERS

Without wishing to constrain the creativity of District Court designers in any way, the Agriculture Committee would like to provide the following broad guidelines to assist the District Exhibits in relating the wonderful story that is modern Australian agriculture and rural life:

- Remember that your primary audience are city people, who may have little or even no knowledge of agriculture and rural life. Therefore please try to create designs that provide clear, positive, easily understood messages that reinforce the overall objective of the RAS of NSW, which is to portray Australian agriculture in the best possible light at all times.
- Try to keep a focus on modern agriculture, unless the design has an overall historical theme.
