

How to present your Artwork

Info

Please note: Entries without the appropriate hanging mechanism will not be accepted, will be marked as 'Not According to Schedule,' and will not be displayed in the Show

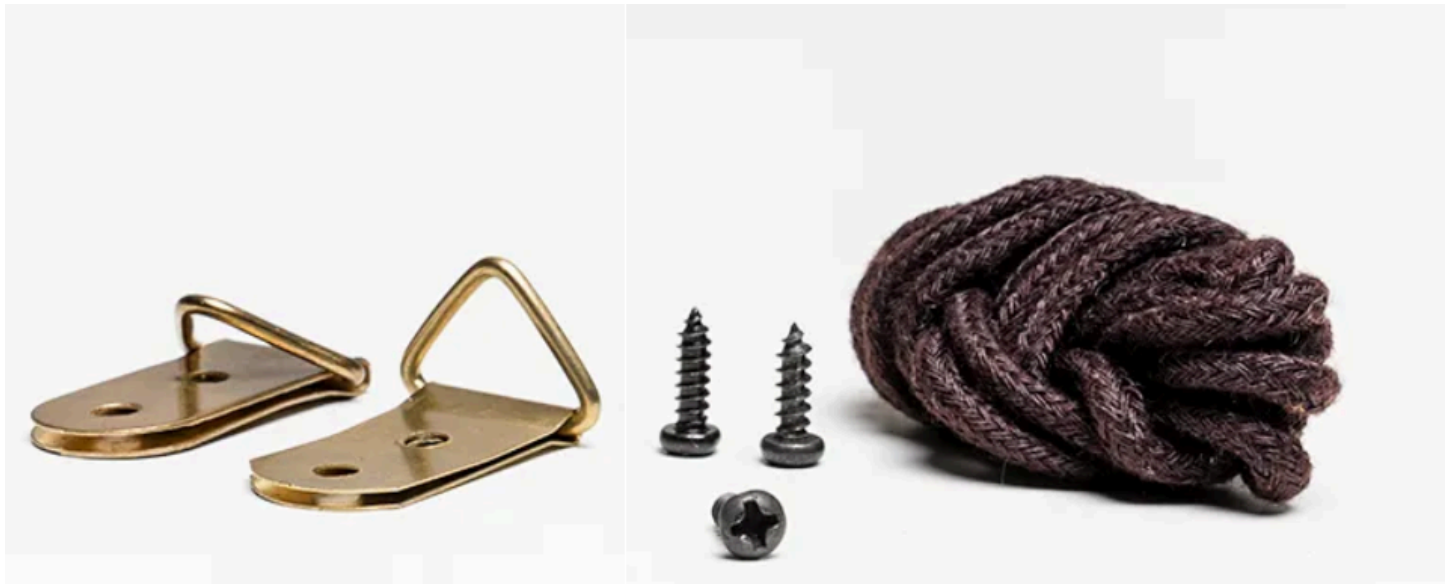

Framing: All artworks must be properly framed and ready to hang (this includes stretched canvas).

Presentation: Entries must be submitted as a single, complete unit.

Hanging: Secure wire with D-rings only. Screw eyes, string, or twine are not accepted.

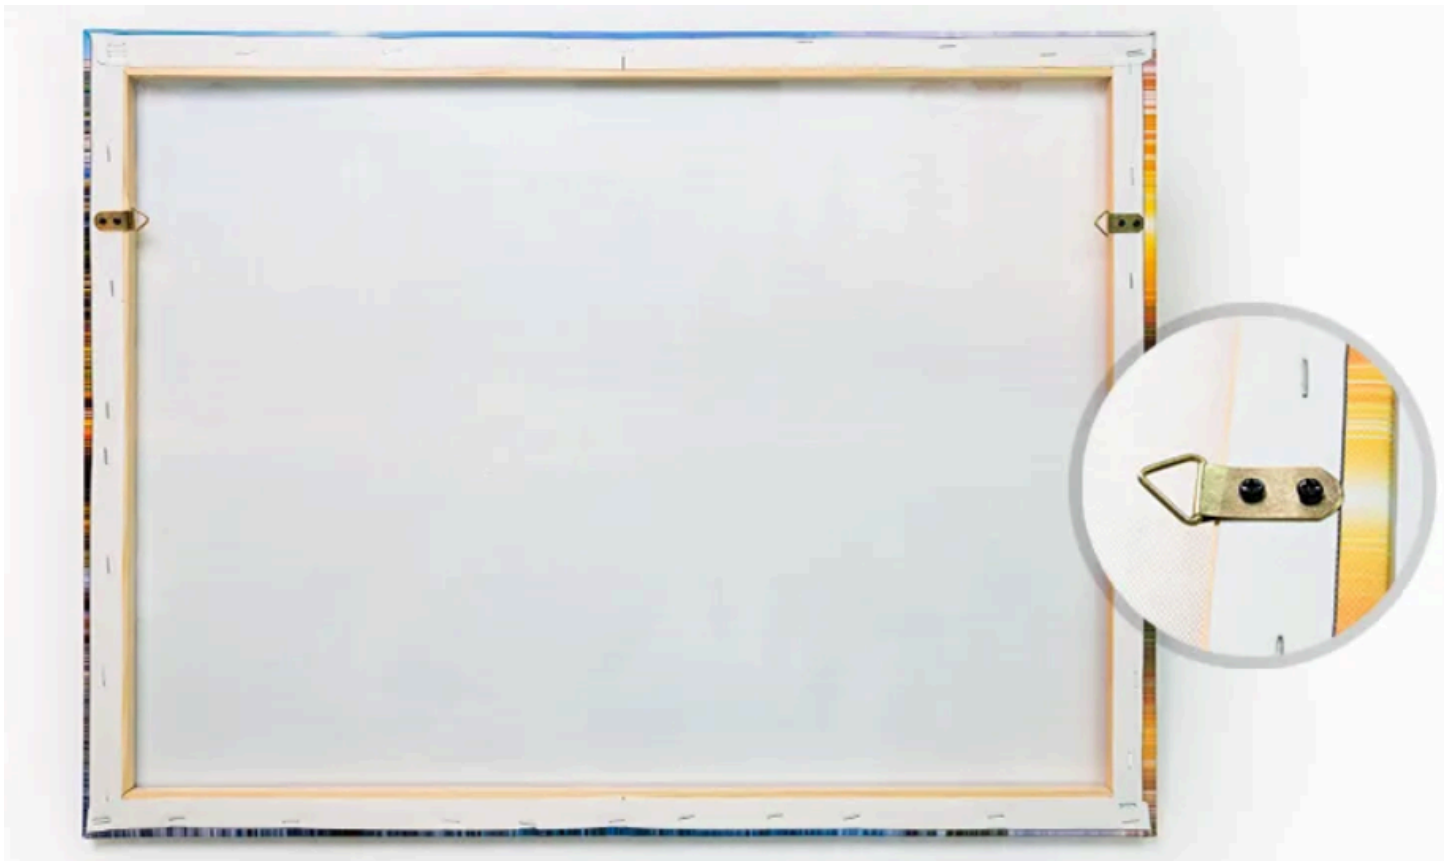

What you will need: *Available for purchase at any hardware store*

- Picture frame wire or cord
- Picture hooks (triangular D-rings)

Step No. 1

Using the **four shorter screws**, secure the **picture hooks** to the side stretcher bars of the canvas, so that each “D” of the D-rings is pointing inward towards the other. We recommend doing a bit of measuring first to make sure the D-rings are level with each other. Ideally they should be attached slightly above the midpoint of the bars.

Step No.2

Take the cord and thread it through each D-ring, pull it taut and then tie a knot at each end to fasten it. Cut off any spare length.
