From the President

Thank you for entering this Sydney Royal Competition and congratulations to all entrants who were successful in achieving the status of Sydney Royal medal winner. This year more than any other, as we begin the countdown to our bicentenary celebrations, we are extremely grateful to all Australian producers who support our competitions and strive to excel within their industry.

The first ever Sydney Royal medal in a competition, a silver tankard, was presented to Jonas Bradley in 1823, the first successful grower of tobacco in the new colony. Ten Spanish dollars was awarded to William Howe for cheese in 1824, and so the rich legacy of our competitions began.

To be the recipient of a Sydney Royal award is a significant accomplishment representing months, years and sometimes decades of hard work and dedication. The ability to go to market with Sydney Royal artwork on the packaging elevates your product and signifies the exceptional quality recognised by our judges.

The rewards for excellence are to be applauded this year in particular, coming off the back of once-in-a-hundred years conditions including drought, floods, fires and a global pandemic. The determination and spirit of producers right across Australia is to be applauded and appreciated. To continue to follow your passion despite seemingly insurmountable odds, and to value your work enough to enter into competitions is one thing, but to achieve outstanding results is a testament to all that the Sydney Royal competitions stand for.

Our competitions are renowned for their fair yet rigorous judging process, the professionalism and integrity of our judging panels and the relevance of our classes to industry and consumer trends. We review our Competitions every year to ensure they remain relevant to industry standards and up-to-date with changing trends and we value feedback from all entrants.

There are many people involved in making our Competitions the world-class events they are. I must thank our judges for their time, expertise and energy. Their impeccable ethics ensure only the best of the best are awarded. I also extend my gratitude to our generous Competition sponsors along with our Committees and supporters.

I hope all entrants have enjoyed their experience and take advantage of the feedback they receive as well as the marketing opportunities available for those who are Sydney Royal medal winners. I encourage all of you to enter again next year and continue to grow your product alongside those of your peers.

'Shroomi' burger sets the bar for Australia's plant-based products at the 2022 Sydney Royal Fine Food Show

MEDIA RELEASE

Tuesday, 20th September 2022.

After a month of judging, across seven individual competitions, the Royal Agricultural Society of NSW (RAS) has today announced the Champion medal products of its 2022 Sydney Royal Fine Food Show, with results reflecting a rise in the quality and market demand of plant-based and gluten-free products.

In line with growing consumer trends, a plant-based section was added to the Specialty Foods competition in 2021. In just its second year, the category has claimed its first champion medal thanks to a standout performer in the 'Shroomi Burger', an invention by Alexandria's 'Made by Kade'.

The mushroom-based, vegan and gluten-free burger was not only the highest scorer in the plant-based category but was also crowned 'Champion Other Specialty Product', a title which excludes only preserves, vinegars and coffee.

Sydney Royal Fine Food Show Chair of Judges, Lachlan Bowtell, believes the plant-based market provides a massive opportunity.

"Some would say that the plant-based products on our supermarket shelves are a fad, I firmly believe it's a trend and one that the Australian Ag Sector cannot ignore", Lachlan Bowtell said.

"We import most of the ingredients for these products and we need to develop this sector as an Australian Ag Sector opportunity. That's why, for the Sydney Royal Fine Food Show, we require products to have 85% Australian content."

In the bakery section, gluten-free products once again stole the show with Wholegreen Bakery defending its title after making history in 2021 when its gluten-free Chocolate Éclair was announced as the first-ever gluten-free product to claim Champion Pastry. In 2022, the Waverley bakery took a savoury approach and has won Champion Pastry once again with its gluten-free pork and fennel sausage roll.

"Gluten-free products have increased over the years, which is a reflection of consumer needs and dietary requirements. It's encouraging that these products are continuing to win against more traditional products, purely because of their good calibre – not simply because they are gluten-free."

In the Smallgoods & Charcuterie competition, salami was a hotly contested category, with Papandrea Fine Foods' Cacciatore Fennel Hot Salami emerging with the Champion Trophy and the highest score across the entire Fine Food Show. The Wetherill Park business also picked up an additional 7 gold medals.

"The standard was very high, across all competitions, and our judges were very pleased with the exhibits. It's great to see so many companies submit their products for evaluation. The Sydney Royal Fine Food Show provides invaluable feedback for exhibitors, by the best judges in the country, which will continue to drive product quality going forward", Lachlan Bowtell said.

TABLE OLIVES

CLASS 6 - Table Olives. Green, Black, Kalamata, Wild, Value Added Olives, Spiced or Flavoured

JUDGES' COMMENTS: A lack of green olives with an over representation of smaller olives in both green, black & flavoured classes. Some of these smaller olives were lacking in flesh. Kalamata olives were delicious & firm & most enjoyable. The flavoured olives were of a wide selection of flavours. The herbs used in some of the olives would have scored many more points if the herbs were of a better quality & that's only where they fell down. We thoroughly enjoyed our experience today of tasting some of Australia's premium Table Olives. The top 2 Kalamata were outstanding!!!

DRIED / CURED

CLASS 4 - Dried / cured products (e.g., Breasola, Prosciutto, Coppa, Basturma, etc.)

JUDGES' COMMENTS: The entrants were of a high standard. However several entrants that earned high silver missed gold through lack of presentation, or perfectly made but with flavour issues. Some entrants were underdone and needed maturing a little longer to achieve ideal flavour. Only one entrant achieved gold carried by the best flavour of the lot.

JERKY / BILTONG

CLASS 5 - Jerky and Biltong strips

JUDGES' COMMENTS: Much improvement as each year passes. Some products presented in retail packaging should be noted, if not already, samples must be presented in plain packaging. Some products cut too thin and workmanship should review sliced thickness.

OTHER CHARCUTERIE PRODUCTS

CLASS 6 - Fully cooked or cured meat products (e.g., roast beef, roast pork, corned beef, pastrami, etc.)

JUDGES' COMMENTS: Overall workmanship was high. Showed a good range of Australian products. We would like to see more traditional roasted Products. If there's no innovation in the products, we'd like to see simple products executed perfectly. Don't over complicate products that are not well up to standard – simplicity when well done speaks for itself. Product description should be true to the product.

CLASS 7 - General Smallgoods, manufactured meat products, any diameter casing. Full or partially cooked. (e.g., frankfurts, Polish salami, etc.)

JUDGES' COMMENTS: Mixed category of smallgoods due to reclassification of the classes been changed overall a good standard of crafted products with good techniques and use of flavours watch small details ground workmanship. And the selection of product entered. A great category overall.

2022 Sydney Royal Fine Food Show – Specialty Foods

CLASS 1 - Sweet Preserves and Dressings (e.g., jams, jellies, conserves, marmalades, spreads, pastes, sauces, infused honey, etc.)

JUDGES' COMMENTS: Overall a good number of exhibits. Some interesting flavour combinations. The consistency varied between exhibitor's spreads and jams, producers using other forms of thickening agents other than traditional pectin. More native ingredients being used which was pleasing to see.

CLASS 2 - Savoury Preserves and Dressings (e.g., sauces, marinades, mayonnaise, salad dressings, pesto, tapenade, mustards, horseradish, chutney, relishes, salsa, savoury pastes, curry pastes, chili preserves, wet rubs, etc.)

JUDGES' COMMENTS: A vast class including meal bases, dressings, marinades, pastes, relishes, sauces, salsas and tapenade. Some great exhibits showcasing beautiful local produce with bright vibrant flavours. We sought medal winners that were accurate with authentic flavour and true to type and solid market appeal.

Great to see the multicultural diversity in the class. We liked seeing some products with native ingredients and would like to see more producers embrace indigenous flavours.

We'd love to know more about innovative producers using the whole product and sourcing ingredients in a sustainable manner. Some innovative packaging contributed to great looking and tasting exhibits. For chilli sauces we encourage producers to check the ISO chilli rating factor.

Careful selection of the right oil for the application. Rancidity was an issue in some instances, and otherwise EVOO was too rich and heavy on the palate, But we understand the market appeal of using this as opposed to seed.

CLASS 4 - Pickled/Marinated Fermented Dried and Preserved Products (e.g., fruit, vegetables, seafood, pickled onions, figs, anchovies, dried mushrooms, tomatoes, kelp, miso, garnishing pearls, mullet, roe, mackerel, any jerky and smoked products, etc.)

JUDGES' COMMENTS: The class contained a wide variation of exhibits. It was found that some products were too complex, where for example too many ingredients were added which defeated the overall end product. It was great to see the craftsmanship where some products were hand cut, however attention to detail needs to be maintained or improved.

CLASS 5 - Vinegars (e.g., caramelised, maceration including raspberry or tarragon, from any fruit, vegetable or grain, etc.)

JUDGES' COMMENTS: A varied and exciting class to judge. A high proportion of caramelised products but there was even variety amongst these entries. Generally, very a high standard and very few technical faults this year. Still a lot of producers using artificial tasting flavours that don't work in acidic liquids. More trials of flavours should be taken before selecting a final flavour to use. Judges really enjoyed the innovative products made from real fruits and encourage producers to experiment with quality ingredients. Very exciting to see some new styles, and these were many of the top awards. Overall, a very pleasant experience to judge.
