SINCE 1822

Royal Agricultural Society of NSW

Welcome from the President

The Royal Agricultural Society of NSW (RAS) is mission-purposed to foster the prosperous and sustainable future of Australian agriculture. Our goal is to help producers improve Australian produce to award-quality levels. This is accomplished primarily through the time-tested approach of competitions, because the very nature of competition drives innovation and excellence.

Sydney Royal competitions establish industry benchmarks by which success can be measured year-on-year. Our Committees carefully design competition categories and establish judging panels to ensure the most effective impact on industry and relevant markets.

We know from 200 years of experience that our competitions raise not only the quality of produce but also the calibre of producers. This year was no different, the excellence of every exhibitor across the board is what continues to keep our competitions so highly anticipated and so well regarded. Thank you to every one of our exhibitors, we value your participation greatly.

Thank you also to our Judges, Officials, Stewards and volunteers who give so generously of their time and expertise. To our valued sponsors and supporters, thank you for your continued investment in what we do. It is because of all of you that Sydney Royal competitions continue to drive excellence in Australian produce, and to ensure the sustainability of agricultural practices for generations to come.

Being newly elected to this role, I am delighted to be working closely with our RAS Councillors and Committee Chairs and all RAS Staff involved in the Wine, Dairy, Fine Food, and Beer & Cider sections. On behalf of us all, I trust that you enjoyed your Sydney Royal experience and I encourage you to join in the tradition of entering every year so that together we can celebrate and propel Australian agricultural excellence.

I look forward to seeing you again next year.

A handwritten signature in black ink, reading 'John C. Bennett'.

2023 Sydney Royal Fine Food Show indicates industry growth and a rise in health-conscious products

23 September 2023

The Royal Agricultural Society of NSW (RAS) has today announced the thirty-two Champion products of its 2023 Sydney Royal Fine Food Show, with this year's competition highlighting significant growth in both quality and quantity of entrants, and an industry trend towards alternative, health-conscious products.

Judged over a three-week period, and encompassing seven different competitions, this year's Sydney Royal Fine Food Show saw a range of newcomers and new products taking centre stage, with five first-time exhibitors receiving Champion Awards.

In the Specialty Foods competition, first-time exhibitor Le Saucier, were awarded Champion Savoury Preserve or Product for their Rosemary Jus, with judges praising its rich meaty flavour and beautiful silky texture. Their Braised Beef Cheek Ravioli also picked up a Champion Award in the Pasta competition, marking the first time in nine years an exhibitor has won a Champion Award in two separate Fine Food competitions.

Sydney Royal Fine Food Show Committee Chair, Lachlan Bowtell, said the level of high-quality produce from first-time exhibitors has positive implications for the fine food industry well beyond these competitions.

"The Sydney Royal Fine Food Show provides an important platform for emerging talent to shine in a very active market, and an opportunity for small producers to have the playing field levelled against their larger competitors, as all products are tasted blind", Lachlan Bowtell said.

"A Sydney Royal medal provides small producers with a recognised mark of distinction, creating consumer confidence in the product, which helps to shape the overall quality of the product market, so it's a win for everyone involved".

Fermented products were a notable standout at this year's competition, with products such as Kombucha, Sauerkraut, and Miso, surging in popularity. The 16th Annual President Medal winners, Rice Culture, led the charge with six gold medals and another Champion Award for their Organic Shiro (White) Miso.

Plant-based and gluten-free categories continue to grow, while natural oil replacements, such as tallow, a rendered form of beef fat, also made an appearance.

"These products are reflective of wider industry trends as consumers are looking for more organic, sustainable, and healthier alternatives to traditional products. The products that we are seeing come through are tapping into current societal values of reducing food waste and consuming produce that provides more holistic health benefits.

"What is most important is that not only are we seeing a growth in these types of products, but the quality is also there, with approximately a third of entrants in these categories receiving gold medals", Bowtell said.

This year's Sydney Royal Fine Food Show saw significant growth across the seven competitions, both in entries and gold medal recipients. Entries in the Professional Bakery

MEDIA RELEASE

competition were up by 42% compared to last year, while the percentage of gold medal winners in the Pasta competition was doubled this year.

In the Oil & Olives competition, despite unseasonably cold weather impacting this year's olive harvest, an impressive 90% of entrants were awarded a medal, with consistent performer Gooramada Olives awarded Champion Table Olives for the third year in a row.

"It's exciting to see the growth across the competitions and the increasing number of medals awarded at that top level, reaffirming that the quality of Australian produce continues to improve. As more and more small producers submit their products for evaluation and receive valuable feedback from some of the best judges in the industry, this will continue to raise standards and drive product quality going forward", Bowtell said.

OIL & OLIVES

VOLUME

CLASS 1 - Extra Virgin Olive Oil, 100% Single Varietal or Varietal Blend - Boutique Volume.

JUDGES' COMMENTS: The standard was generally good a few golds and many silvers. This year I found more fruity oils than robust which was very pleasing, There was a couple of oils that didn't make the grade. In all Our view was a successful year,

FLAVOURED & CULINARY OIL

CLASS 4 - Flavoured Oils. Olive Oil base. Citrus - sourced solely from the fruit of the citrus genera, Herbal - sourced solely from the leaves, flowers or seeds of plants, Other - lemon myrtle, fruit, garlic, chilli, fungi, smoked, combination of Citrus and Herbal)

JUDGES' COMMENTS: A great class of flavoured oils ranging from big flavours of both agrumato and infused oils. There was a diverse styles of oils and they were represented at all medal levels. The oils vary from fresh citrusy varieties such as lemon, mandarin and orange to tumeric, chilli, garlic and other herbs. The judges appreciate the art and science of making these beautiful flavoured oils which are delightful to judge. The oils are fresh, with a great balance of aroma and flavour, bitterness and pungency are not too overwhelming with a lingering finish.

CAKE CLASSES

CLASS 5 - Small Cakes (e.g., muffins, cupcakes, lamingtons, etc.)

JUDGES' COMMENTS: Presentation of products in class was very high standard overall. Portion size was an issue with some products, best in class had a good balance of textures and flavours, were not overly sweet and presentation reflected what the product was. Natural flavours and balance of light, moist cake textures and frostings and or mousses yielded best result. Gluten free options very good and all medal winners were well received.

CLASS 21 - Viennoiserie including Yeast-based and Laminated Pastries (e.g., Danish, vanilla slice, brioche, croissant, pain au chocolat, etc.)

JUDGES' COMMENTS: A good croissant is symmetrical and precise, though the gold medal winner was the opposite, rustic yet still gorgeous. Flavour and mouthfeel is just as important as asthmatics, judges awarded high marks for delicious butter flavours and long lasting crunch. From the entries today it seems the size of croissant products is growing in size.

DRIED / CURED

CLASS 4 - Dried / cured products (e.g., Bresaola, Prosciutto, Coppa, Basturma, etc.)

JUDGES' COMMENTS: Overall the entrants were of a high standard with 4 achieving gold, 10 silver and 6 bronze. Several entrants that should have achieved gold missed out because of minor workmanship issues relating to presentation of the product. Attention to detail on descriptions costs points in identifying listed characteristics.

JERKY / BILTONG

CLASS 5 - Jerky and Biltong strips

JUDGES' COMMENTS: Great level of entries across the board with a number of medals for a category in its infancy at RAS. Lacking innovation within the class. Suggest trying different options with ingredient combination. Special mention to the butter chicken jerky entry which was a step above the rest in terms of innovation. It had a great flavour and aroma but just dropped in score by being too dry (178). Garlic and ginger jerky also demonstrated creativity and should be commended (174). Drywors (166) also deserves a special mention for being a great product delivering in texture and flavour.

CLASS 7 - General Smallgoods, manufactured meat products, any diameter casing. Full or partially cooked. (e.g., frankfurts, Polish salami, etc.)

JUDGES' COMMENTS: Interesting mix of products. The black puddings varied in presentation, one filled into tube and the rest in hog casings of mixed sizes often varying by entrant. The flavours varied from salt to very sweet. More attention to the seasoning of products would raise the quality overall in the class. Some interesting new innovative products was good to see . The sections were very well represented.

SAUSAGES

CLASS 9 - Fresh sausages, any meat species, uncooked.

JUDGES' COMMENTS: Overall the quality of products was very high with interesting range of new and innovative combinations of ingredients. The focus seemed to be on differences in ingredients and not so much on the end product flavour outcomes for the consumers. Products may do better by road testing on consumers prior to entering in the competition. Attention to seasoning will improve the outcome of the eating.

SPECIALTY FOODS CLASSES

CLASS 1 - Sweet Preserves and Dressings (e.g., jams, jellies, conserves, marmalades, spreads, pastes, sauces, infused honey, etc.)

JUDGES' COMMENTS: Good variety of jams and conserves, creative flavour combinations, interesting combination of ingredients, nice to see honey featured, interesting choice of spices selected Pay attention to finer details in preparation would elevate this class as a whole.

CLASS 2 - Savoury Preserves and Dressings (e.g., sauces, marinades, mayonnaise, salad dressings, pesto, tapenade, mustards, horseradish, chutney, relishes, salsa, savoury pastes, curry pastes, chili preserves, wet rubs, etc.)

JUDGES' COMMENTS: Overall very impressed with the Class, novel marinades and jus with great quality ingredients. We'd like to see more focus on seasoning and flavour balance and making sure the savouriness of the product is considered. Pleased to see Australian made Japanese products come through. Quite a few similar products in style, Exhibitors to strive to make a point of difference. We looked for products that benefitted from the inclusion of chilli and where chilli didn't overwhelm from a spice or inclusion (skin or seeds) perspective. We query the (mis)use of artificial colours and recommend selecting the right packaging for the product - consider opening diameter and droppers for high viscosity products for dosage control, sometimes the viscosity detracted from the enjoyment of a product (either too thin or too bitty), care needs to be given to this during product development. We looked for truth in labelling and shelf life and product stability. Sometimes ingredient listing was scant and this was problematic.

CLASS 3 - Herbs/Spices (including Salts, Spice Mixes & Dry Rubs) (e.g., Australian grown culinary herbs and spices - lemon myrtle, vanilla, saffron, pepper, dukkah, dry rubs, garlic, truffle, etc.)

JUDGES' COMMENTS: There seemed to be a focus on how many flavours you can add to salt. A number of items had starting problems making use quite variable if consumer did not stir well

CLASS 4 - Pickled/Marinated Fermented Dried and Preserved Products (e.g., fruit, vegetables, seafood, pickled onions, figs, anchovies, dried mushrooms, tomatoes, kelp, miso, garnishing pearls, mullet, roe, mackerel, any jerky and smoked products,etc.)

JUDGES' COMMENTS: Brilliant new and innovative products especially with an Asian focus (miso and fermented veg] The judges all felt that acidity and salt levels need to be considered for all fermented products, some were too high and some too low. Incredible innovation using unusual products (egg yolks and preserved ginger) showcasing beautiful raw ingredients that are scalable Natural flavours were the preferred flavours.

CLASS 5 - Vinegars (e.g., caramelised, maceration including raspberry or tarragon, from any fruit, vegetable or grain, etc.)

JUDGES' COMMENTS: Standard was excellent, descriptions and ingredients were conflicting in some areas. Overall high standard of submissions. Good flavours and different experimentation on flavours. Encourage more local flavours. Question the sweetness level of many submissions as well as syrupy sweet versions that resemble fruit syrups instead of vinegar. The word balsamic perhaps needs revision as many don't use the balsamic process. Likewise with caramelised perhaps the phrase is confusing to judges and exhibitors.

CLASS 6 - Dips (e.g., basil, hummus, tzatziki, taramosalata, smoked or dried seafood)

JUDGES' COMMENTS: Would like to see more fish content in fish pate and softer to dip. Was innovation in cucumber jelly but the salmon was lost as combination of hot and cold smoked salmon confused the taste. Encourage under utilised ingredients used.

CLASS 9 - Confectionery & Chocolate (including peanut brittle, chocolate coated macadamias, sugar coated almonds, nougat, rocky road, fudge, fairy floss, licorice, marshmallow, etc) Can be chocolate based or non-chocolate based, dipped, enrobed or moulded.

JUDGES' COMMENTS: Overall a good variety of innovative ideas with sophisticated twists on some classic confectionary products. Fresh and local nuts with some interesting use of native ingredients with better understanding of how they work within their applications.

CLASS 10 - Natural Base / Non-Carbonated Drinks (e.g., cold pressed juice, cordial, concentrate, green/black tea, non-alcoholic cider, Kombucha, etc.)

JUDGES' COMMENTS: Comprehensive class very varied entrants Excellent to see some green tea products with great inclusions and innovation. We felt that natural ingredients and flavours were preferred rather than artificial additives. We'd welcome more tisanes and other Australian black teas. Care to be taken for sugar content and sweetness as some products were overly sweet. Great use of new and novel ingredients (Koji and kefir)
