# 2018 PRIME LAMB COMPETITION

**Judge: Anthony Clarke**

*Each pen is scored out of ten (10) for each of the following points:*

*Presentation, Conformation, Fat Cover, Evenness and Skin Value*

## **Judges' Comments**

Most of those in the competition are obviously supplementary feeding their lambs.

### **Lightweight – 35-42kg**

- Lambs were quite fresh considering the seasonal conditions.
- The fresher lambs handled quite well.

### **Middleweight – 42.1-48kg**

- Good class of well presented lambs.
- Most lambs were well finished despite being a little drier in the skin.

### **Heavyweight – 48.1kg and over**

- Another top quality class of heavy lambs.
- All lambs showing good condition and weight, even though tended to be dry in the skin.

### **Schools Class**

Two very good pens of lambs. Very fresh.

# 2018 LAMB CARCASE COMPETITION

## 2018 LAMB CARCASE COMPETITION JUDGING

**JUDGE: Dr Stephanie Fowler**

Assisting in the Abattoir were Manager Southern Meats Company, Goulburn Abattoir Steve Duncan; Illabo Show Society Phil Carter, James Croker and Michael Ryan, Paige Cape - RAS Competitions Manager, Joe Byrnes - RAS Sheep and Fleece Councillor, Rachael Rodney-Harris, and Madeleine Gribble RAS - Coordinator, Competitions Administration & Service.

### **JUDGING PROCEDURE**

Exhibits are marked out of a total score of 115 points. Judging points are allocated in the following three areas:

- |                    |           |
|--------------------|-----------|
| 1. yield           | 50 points |
| 2. eye muscle area | 25 points |
| 3. visual points   | 40 points |

Three lambs are randomly selected and ear tagged A, B & C to form a pen for carcase judging. Each lamb's live weight is recorded.

#### **Yield (50 points)**

Each lamb's carcase weight and GR fat measurement is recorded. 0.5 is added to the Carcase Weight. Based on this weight, the GR measurement is used to calculate the Yield. Fatter carcasses generally have a lower yield score.

#### **Eye Muscle Area (25 points)**

All lambs were scanned and the eye muscle depth and fat ratio were recorded.

#### **Visual Points (40 points)**

The judge visually assesses each pen and allocates points for the following attributes:

- Conformation
- Evenness
- Fat cover
- Saleability

#### **Total Score (115 points)**

# JUDGES COMMENTS

## Class 1

- Good confirmation and good EMD for weight overall.
- Most needed more fat cover over the hindquarter and some pens lacked evenness.
- The top two pens were close in this class. Split by fat cover and evenness.

## Class 2

- One pen was a standout.
- Good fat for weight.
- Lacked evenness across pens and fat cover over hindquarters.
- Some had wastage over the hindquarter, but excellent for the season.

## Class 3

- Good muscling and fat cover for weight considering the season.
- Some were let down by EMA but had good hindquarters.
- Others lacked evenness and fat cover over hindquarters.

## Schools Class

- Standout pen had good confirmation, fat cover and evenness. A very saleable, high yield of lamb.
- Almost too much fat.
- Second pen showed good evenness but lacked fat cover and weight of the other pen.

## Pen of Prime Lamb Carcases

The **Champion Pen of Prime Lamb Carcases** - This pen showed great fat cover and evenness. Good muscling for their weight and carried across the 3 carcasses.

The **Reserve Champion Pen of Prime Lamb Carcases** - The pen consisted of good confirmation and consistency but didn't quite have the muscling of the Champion but both classes did really well to finish them to the quality considering the season. They carried muscle through to the shoulder.

## Individual Carcase

The **Grand Champion Carcase** came from pen 311. This carcase showed great muscling and fat coverage without having little waste. Quality of the carcase showed through the breeding and feed.

The **Reserve Grand Champion Carcase** came from pen 302. This was a quality carcase which just missed out on Champion. The carcase had good fat cover for age and weight. There was a quite a range across the classes but the lambs but the lambs at the high end were consistently a very saleable commodity.
