## FLOOD'S PRIZE IMPROVED WATERLIFT,

First Award and Gold Medal, Melbourne Jubilee, 1884; Also, Perth Exhibition, W.A. (beating all other Waterlifts exhibited), Highest Award at Adelaide and Christchurch Exhibitions,

Will raise 10,000 Gallons per Minute, if required.

GUARANTEED TO LIFT WATER FROM A DEPTH OF 300 FEET.

Obtained numerous Awards of Prize Certificates, Money Prizes, and Medals, at various shows from National Agricultural Societies in Victoria, 1876; Ballarat, Geelong, Sydney Intercolonial, 1879 and 1880; and at Melbourne International Exhibition it obtained the HIGHEST AWARD given in the section in which it was exhibited (vide Melbourne and Sydney Press.) Especially adapted for Irrigation, Stock Watering, Sheep Washing, Mining, Stone Quarrying, Draining, and Raising Sunken Vessels; worked by hand, horse, wind, or steam power; from one boy power to 1000 horse-power.

### LIST OF PRICES.

7	2 horses, 10 "	600 "	£48	30s. "
10	4 horses, 10 "	1200 "	£81	60s. "

Or 5 strong Horses will raise 2,000 Gallons per minute 8 feet.

The advantages of this style of chain pumps are—

First—The enormous proportion of useful work done, compared with the amount of power expended, which will be apparent from the following, viz.: "With one of my Improved Water Lifts 100 tons of water can be raised from a depth of 12 feet for less than one shilling, which is equivalent to one inch of rainfall on one acre of land for one shilling." For proof, see controversy, *Evening Herald*, headed, "Irrigate the Plains," dates, April 6, 8, 13, and 16, 1880 (see pages 8 to 12). Cost varies with the depth. The s.s. *Austral* (Orient Line) sank in Neutral Bay, Sydney Harbour, on November 11, 1882. She displaces, at load line, about 9,500 tons. With one of Flood's Improved Waterlifts (10 inches diameter) 10,000 tons of water could be pumped out of that vessel in about 31 hours; she would consequently float in about 2 1/2 days.

Secondly—The Plugs in a Water Lift being the vital part, so to speak, F. Flood has devoted special attention to their improvement, and his indestructible Plugs are such a success that they have been supplied to private persons and Shire Councils in this and the neighbouring Colonies for Waterlifts not manufactured by F. Flood, the Shire Council of Dimboola having taken six sets of my chains and plugs as above. Cheap Presses for Cupping Leathers supplied.

Messrs. LASSETTER & Co., Sydney, say—"May mention that we approve of your Iron Plugs, and have pleasure in recommending them."—7th March, 1877.

They diminish the vibration, will not shrink or swell, and are comparatively indestructible.

SELF-ACTING WINDMILLS (to Drive Pumps or do other work) a speciality.

## SECRETARY :

F. WEBSTER.

## I.—OPENING.

The Exhibition will open on Wednesday, 2nd September, 1885, at noon.

## II.—ADMISSION.

Members free, on presentation of Member's Ticket, which is not transferable.  
Non-members, one shilling each ; Children, sixpence.

## III.—CONDITIONS OF COMPETITION.

All exhibits, on the day of the Exhibition, and all Farm and Horticultural Produce, must be the production of the person exhibiting them.

The same exhibit cannot compete for the Society's prizes in two distinct classes.

Exhibits, although entered in any class, may compete for Special Prizes, notice of which shall be given on the Certificate of Entry.

Exhibits entered in the wrong class by the exhibitor will be excluded from competition for prizes, except where permitted by the Council.

Any exhibit having taken the first prize in a class for two consecutive years shall not receive any prize in such class, but may be exhibited, and if considered superior to all other exhibits in that class it shall receive a certificate from the judge to that effect. Such exhibit shall, however, be eligible to compete for any SPECIAL PRIZE.

Any Exhibit appearing on the Show Ground, or in the ring set apart for judging purposes, with medal or distinguishing badge prior to the prizes being awarded, will be disqualified.

## IV.—CERTIFICATES OF ENTRY.

The Certificate of Entry is a printed form, to be obtained from the Secretary, and is available for ONE EXHIBIT ONLY, except in the case of stock entered for sale, when one certificate is sufficient. The exhibitor, therefore, must apply for as many Certificates as he has exhibits, except as specified above, and must fill them in according to the forms prescribed. And as it is from these documents that the Catalogue will be compiled, it is absolutely necessary that the whole of the questions contained in them should be answered as far as possible.

The Certificate will not be valid unless signed by the exhibitor or his agent.

No exhibit will be admitted without a Certificate of Entry, correctly filled in, signed, and delivered by post, or otherwise, to the Secretary, at the Office of the Society, on or before the dates for the closing of Entries specified on the Certificate of Entry, or advertised ; and the Secretary will acknowledge the delivery of the Certificate by returning to the exhibitor a receipt for the same, upon the production of which the exhibit will be admitted into the Society's Ground.

No entrances will be received after the dates specified for the closing of the same.

All owners competing in Sections I. and II. shall be restricted to *two* entries of pure pedigree (as admissible in the Stud and Herd Book) in each class, but no branch establishment of one partnership shall entitle owners to more than the *two* aforesaid entries in each class, but they may enter *ten* others, not necessarily of pure pedigree, for exhibition and sale on the Grounds, upon payment of a fee of ten shillings for each head, these latter to be paced in yards. In case of protest, based on difference of age, animals to be submitted to the Society's V.S.

Exhibitors, or their agents, when called upon by the Stewards or Council, shall prove the correctness of their Certificates of Entry.

Such charge as the Council may determine shall be made for ground or wall space, and the Stewards shall use discretionary power as to the space to be allotted to each exhibitor.

## V.—ARRIVAL AND ARRANGEMENT OF EXHIBITS.

All exhibits must bear a distinctive mark, corresponding with that entered upon the Certificate of Entry, and be delivered to and removed from the Society's Ground free of charge.

Exhibitors or their agents must, if requested, point out to the Stewards their respective exhibits, in order that they may be identified, classified and numbered according to the Catalogue, before being submitted to the Judges.

No exhibit will be admitted into the Society's Ground unless the attendant is in possession of the Secretary's Receipt ; and each exhibit when it enters the ground, must be at once put into its proper place.

All exhibits other than live stock, must be upon the ground not later than Tuesday, 1st September.

Live Stock must be on the ground before 10 o'clock on Wednesday, the 2nd September.

## VI.—DISEASE OR DANGER.

Should there be any reason to suspect that any exhibit is either diseased or dangerous, the Society reserves the right of removing the same from or refusing its admittance to the Exhibition.

## VII.—CONTROL OF EXHIBITS.

Exhibitors shall, under direction of the Stewards, arrange their exhibits, and no exhibits shall afterwards be moved without the sanction of the Stewards, under a penalty not exceeding £5.

The Council shall have power to retain the exhibit of any exhibitor so fined until such fine is paid.

The Members of the Council and the Stewards in the section shall, at any time, have power to enter any space allotted to any exhibitor, and give such directions as regards the exhibits as they may

Exhibitors will render themselves liable to a penalty of £5 by removing any official placard, ticket, or ribbon affixed or posted by the Stewards, or by affixing any other placard, ticket, or ribbon in lieu thereof, or by refusing in any way to carry out the instructions of the Stewards, who shall incur no responsibility by putting these regulations in force.

No exhibitor shall be permitted to be with the Stewards or Judges during the time of judging the exhibits, unless by special request of the Stewards. And the exhibit or exhibits of any person infringing this rule shall be at once disqualified.

LIVE STOCK ATTENDANTS will be supplied by the Stewards with distinguishing badges, and required to wear the same, and shall be regarded during the time of the Exhibition, as servants of the Society, and shall be under the entire control and direction of the Stewards. They shall be in attendance each day of the Exhibition from 9 a.m. to 6 p.m., for the purpose of exhibiting and parading stock.

#### VIII.—CARE AND FEEDING OF STOCK.

The Society undertakes to find the necessary accommodation and attendance, if required, for the animals and birds, during the Exhibition; but no provision will be made for the feeding of the same (except in the case of Section VI.—Dogs), beyond establishing a store, at which fodder may be purchased by exhibitors.

#### IX.—DEPARTURE OF EXHIBITS.

*General.*—Notwithstanding the dates hereinafter affixed for the departure of the several exhibits, the Society reserves the right to retain any or all of them for such further time as the Council may consider necessary; and no exhibit shall be removed from the Exhibition without a formal permit from the Stewards or the Secretary.

*Live-stock.*—All Stock, including Dogs or Poultry (except by permission of the Council), must remain in the Exhibition till 5 p.m. on Saturday, 5th September.

*Horticultural and Farm Produce, not of a Perishable Nature* shall be kept till 6 p.m. on Saturday, 5th September, and arrangements may be made with the Stewards to renew the plants, if necessary, during the Exhibition.

#### X.—RESPONSIBILITY.

*Damage through Exhibits.*—The Society will not be responsible for any accident that may be caused through or by any exhibit, and it shall be a condition of entry that each exhibitor shall hold the Society harmless, and indemnify it against any legal proceedings arising from any such accident.

*Damage to Exhibits.*—The Society will not, under any circumstances, hold itself responsible for any loss or misdelivery of Live-stock, or other exhibits at the Society Exhibition, or for any damage thereto.

*Loss by Disease.*—The signing of the Certificate of Entry of any animal will be taken as a guarantee that the animal specified is free from all disease, as far as is known to the owner. In case of infectious disease being spread through or by any exhibit, the exhibitor shall be held responsible.

#### XI.—TRIALS, PARADE OF STOCK, &c.

Due notice will be given by advertisement to exhibitors of the arrangements made by the Stewards for carrying out field trials of implements, machinery, parade of stock, &c.

*Movement and Working.*—The conveyance to the trial ground and working of the implements and machinery will be directed by the Stewards, and they will be carried out at the exhibitor's expense.

*Working Implements.*—No implement shall be worked on the ground except by the express order of the Stewards.

*Grain in Sheaf, &c.*—Grain in sheaf, hay, corn, straw, roots, wool, or any material required for testing the machines, and (if wanted) horse-power, must be provided by exhibitors.

*Steam.*—No exhibitor shall light a fire under, or supply the boiler of any steam engine, until he has the authority of the Stewards to do so; this authority will be given after the engineer appointed by the Society has examined the engine, and has certified that it is perfectly safe.

The Stewards shall have power to order the removal of any exhibit worked in contravention to this rule.

#### XII.—INFRINGEMENT OF REGULATIONS.

In the event of a wilful infringement by any exhibitor of any of the foregoing Regulations and By-laws, it shall be in the power of the Council, upon proof of the same, to prohibit such exhibitor from exhibiting and competing at any of the Society's Exhibitions in future.

#### XIII.—PRIZE AWARDS.

The prize awards affixed to all exhibits shall be distinguished by the following colours, viz.:—

BLUE for First.  
RED for Second.  
YELLOW for Highly Commended.  
WHITE for Commended.

RED, WHITE, and BLUE for Champion.

Ribbons will only be affixed in Sections 1, 2, 3, and 4.

#### XIV.—PROTESTS.

All protests must be lodged (in writing), with the Secretary, or left at the office of the Society, addressed to him, within forty-eight hours from the notification of the Judges' awards, enclosing £1 ls., which may be forfeited if the protest is considered frivolous.

#### XV.—NON-COMPETITIVE.

The Committee may receive for exhibition only, and not for competition, if space admits, any exhibit not specified in the schedule.

#### XVI.—STEWARDS.

Stewards in all sections:

1. Shall attend at the time and place notified to them by circular.
2. Shall examine as to the correctness of Certificates of Entry in their respective sections prior to the completion of the Catalogue.
3. Shall attend to the reception, classification, and placing of all exhibits, and to all matters in connection therewith.
4. Shall wait upon the Judges, furnish them with award papers, prize cards or ribbons, and afford them all information and attention necessary to the discharge of their duties.
5. Shall sign the award papers conjointly with the Judges; see the prize cards or ribbons properly affixed to the prize exhibits, and certify to the awards noted by the Secretary in the Society's Entrance Registry Book.
6. Shall arrange amongst themselves for the constant and effective supervision of their sections, the behaviour of the attendants, and the comfort and convenience of both exhibitors and the public.
7. Shall, in case they think it advisable to reject an exhibit in any section, at once report the same to the Council, who shall take immediate action in the matter.

#### XVII.—JUDGING.

*Award Papers.*—The Judges shall fill up the award papers supplied to them in all their details, assign reasons for their decisions if requested, sign and hand the same to the Stewards.

*Insufficient Merit.*—When the Judges consider the exhibit of any class does not possess sufficient merit to deserve a prize; or in case of equality of merit; they shall, through the Stewards, at once report the same to the Council, with their reasons in full, and the Council shall act as they deem expedient.

*Extra Prize.*—The Judges of any section, should they consider any exhibit deserving of any extra prize, may recommend the Council to award the same.

#### XVIII.—PRIVILEGES.

The privilege of sale of refreshments, fodder, &c., shall be sold as deemed advisable by the Council prior to the date of the Society's Exhibition.

No drinks, edibles, or other refreshments, shall be permitted to be sold at the Exhibition otherwise than by the authorised Caterer of the Society, except by special permission from the Council.

No entertainment for which a special charge is made shall be permitted at the Exhibition without special permission from the Council.

#### XIX.—EXHIBITORS' SALES.

Public sales of such exhibits as owners may desire to dispose of shall be held at the Exhibition on such days and in such order as shall be duly notified.

#### COMMISSION ON SALES.

A Commission or rebate of one per cent. on all sales of exhibits effected either by auction or Privately shall be paid to the Society, for the benefit of the General Fund, immediately after the close of the sale.

#### THE POST OFFICE.

Arrangements have been made to the following effect: To clear the box three times daily—viz., at 6.15 a.m., 12 noon, and 3 p.m. A person will be in attendance from 9 a.m. to 5 p.m. to sell stamps, weigh letters, and give all postal information to the public. Letters addressed to the Exhibition will be delivered upon application at the office.

THE TELEGRAPH OFFICE will open for business at 10 o'clock, closing at 5.30 daily.

**MOST NUTRITIOUS**

AS WELL AS

THE CHEAPEST FODDER YET OFFERED IN NEW SOUTH WALES

IT IS DAILY GAINING IN FAVOUR AMONGST

### SQUATTERS, DAIRY FARMERS

AND ALL WHO USE IT.

TESTIMONIALS AS TO ITS USEFULNESS ARE CONTINUALLY BEING RECEIVED.

—:O:—

MR. C. A. PORTER, OF WEST CAMDEN, WRITES:

"I have much pleasure in bearing testimony to the great value of the N.Z. Oilcake I purchased from your firm. For all stock-feeding purposes it is simply invaluable. It is much superior to the English article, having a larger percentage of oil and being much more nutritious. It will stand mixing with an inferior food, and still hold a high standard of value.

"Your obedient Servant.

"G. A. PORTER."

These are very SIMPLE and HANDY Presses, and are not likely to get out of order. A great number have gone into use, and are giving very general satisfaction. They are well built, and with the aid of this illustration any ordinary bush hand can, in a few hours, put one together.

The usual screw is dispensed with, and the pressure brought to bear by means of a strong rope or chain, working in sheave pulleys overhead, attached to a ram, and winding on a fusee, which is made in the shape of a suddenly tapered screw. The rope works on the large part of the fusee when the pressure is light, and passes down to the taper end as the pressure increases, being worked by a lever fixed on the centre spindle. The top box is hinged to side brackets and turns down on to the floor, which greatly facilitates the putting in of the wool, and renders any second floor unnecessary, and when filled is easily placed back in position. When the bale is pressed and the sides sewn, the ram is lifted by a small rope from the fusee, turned by a handle. It will be understood how very quickly the power is brought into application by this means, and a large amount of work is got through by the usual number of hands. Special attention is directed to the fastening of the packs before the wool is put in, which is done in an exceedingly quick and simple manner:—Four pieces of wood are fitted into the recesses of doors, which hold the pack securely in position. The side catches for fastening the doors are held in position by a vertical bar, and relieved simultaneously. The side door is also held in its place by a catch, which at any time can be relieved instantly, the door falling back and allowing the bale to be removed.

At the Melbourne Exhibition Competition this PRESS turned out 3 Bales of Scoured Wool in 28½ minutes, being considerably less time than any other Press, although one had the advantage of being driven by steam.

### MERITS OF BARBED WIRE FOR FENCES.

- |   |  |
|---|--|
| 1.—It is the strongest fence that can be erected.                 | 7.—It is exactly and quickly erected.  |
| 2.—It is the most durable.  | 8.—It is easily seen, thus preventing one of the main objections to a plain wire fence.        |
| 3.—It is not affected by wind, fire or flood.                     | 9.—It will keep cattle and horses in.  |
| 4.—It takes fewer posts than a rail fence.                        | 10.—It is especially adapted for sheep farms, keeping the sheep in and dogs and kangaroos out. |
| 5.—Should anyone push it down, it being a complete steel hedge.   | 11.—It is the greatest practical invention of the age.   |
| 6.—It takes but little room, and land can be cultivated up to it. |  |

### OBJECTIONS.

When our BARBED FENCE is introduced, the objection is sometimes raised that cattle would be injured in passing across the fence, but it has NO FOUNDATION whatever, as all the largest Stock-rangers in the world use this fence, and in NO INSTANCE have we heard of INJURY TO CATTLE.

One thing that must be remembered is, that FENCING THE FARM AND THE
