HOLDEN

Australia's Own Car  Australia's Own Utility

Lively
6-cylinder engine

Extraordinary
economy

Plus good looks
that will last

From the outset Holden has proved itself a truly remarkable car. Now it continues to win admirers from all parts of Australia . . . proving itself worthy of the title — "Australia's Own Car". And no wonder; from its smart, low-slung aerobilt design and big-car roominess to its amazing petrol economy, manoeuvrability and jet-like acceleration, Holden and only Holden is planned, designed and engineered to suit all Australian conditions — city and country.

Like the famous sedan the new Holden Utility of aerobilt construction is an O.H.V. 6-cylinder, 21 horse power vehicle with the same impressive petrol consumption and the same indisputable good looks. At work it's all power, carrying payloads of up to 7 cwt. with speed and ease. At leisure it is the smartest most attractive utility on the road . . . wonderfully roomy — seats three with comfort. Yes, from smooth start to smooth finish, from front to rear, Holden is a real Utility.

★ There are two Air Chief Radios specially designed for Holden . . . a long range 5-valve set and an exceptionally powerful 6-valve model.

★ Concession Hire Purchase terms are available through G.M.A.C. . . . General Motors' own finance company.

Self Raising Flour
containing 'AEROPHOS'

Why is it that so many good cooks use and recommend Self Raising Flours containing 'AEROPHOS,' the wonder double-acting raising ingredient?

There are two reasons:

1. 'AEROPHOS' makes for a lighter, tastier mix by softening the gluten in the flour.
2. 'AEROPHOS' reserves its main raising action until the mix is in the oven—thus the mix rises smoothly, giving a wonderfully light, even texture.

Always ask for Self Raising Flour containing 'AEROPHOS'
