It has been decided to limit the number of exhibiting Districts to five (5). The Council reserves the right to require one or two Districts scoring the lowest number of points to stand out of the following competition. Entries should be guaranteed not later than 1st June for the succeeding competition.

SCALE OF POINTS USED IN THE JUDGING OF EXHIBITS.

A District may, subject to the approval of the Society, eliminate from its range of exhibits certain specified commodities, which cannot be commercially produced. A list of the exhibits to be eliminated must be lodged with the society not later than 15th January, each year. The whole or part of any one of the Sections 1-11, or the whole or part of any sub-section may be eliminated. All eliminations shall be subject to review and approval or otherwise by this Society's Agricultural Section Committee. As a result, the competition shall be decided on the percentages gained by the various Districts of the total points which it is possible for them to receive.
